14. Molluscs and products based on molluscs

The fish destined to be consumed raw or practically raw has undergone a preventive reclamation treatment in compliance with the provisions of the regulation CE 853/2004 III section VIII chapter III letter D point 3.

The kitchen game is crazy, the juxtapositioning between memories, visions and sensations, the hours and years of study, the mental and physical journeys, the birthing and developing of an idea that grow, only to abandon it over time so as to begin the cycle again, like children, never ceasing to be curious.

We live it, support the producers and close the circle with You, friends, travellers and ardent customers, who visit our tables every day, and it is to You we dedicate these stories.

Imagine it like going to the theatre, but here you are the architect of your own experience...
